### SOUTH BAY BEAN CITY LAKE HARBOR

Mrs. S. H. Rinks and daughter Judy, of Macon, Georgia, are house guests of her sister and brother-in-law, Mr. and Mrs. C. A. Whitman, Sr. and Mrs. C. A. Whitman, Jr. of Macon, Georgia, who are spending the winter in Florida.

Pete Challenor of New Jersey was called here last week by the illness of his mother, Mrs. John Challenor who suffered a heart attack recently.

Miss Marjorie Touchstone has returned to her home in Fort Myers after an extended stay with her grandmother, Mrs. Cora Marlowe.

Mr. and Mrs. Marvin Miller, Billy and Sue of More Haven were overnight house guests of Mr. and Mrs. A. B. Barnes and family.

### Chamber Of Commerce Reorganizes For Year

The South Bay Chamber of Commerce met at the school auditorium Monday evening to reorganize for the coming year.

W. W. Ferguson was elected president, S. J. Fisher vice-president and Mrs. Jewell Lovell secretary and treasurer.

Those attending were W. W. Ferguson, M. J. Hardy, Mrs. A. N. Lamoureux, Mrs. Mollie Walker, Mrs. S. E. Henderson, O. H. Martin, Mrs. O'Neal Walker, S. J. Fisher and Mrs. R. L. Lovell.

The next meeting will be held on Monday March 27, when five directors will be elected.

### Lions Club Receives Charter And Officers

The South Bay Lions Club is formally recognized after presentation of their charter and installation of their officers on Charter Night at the South Bay school cafeteria on Thursday, March 16, at a banquet prepared by the Parent-Teachers Association.

The Belle Glade Lions Club and their wives attended in a body, and guests were present from the Clewiston, Palmetto and Canal Point Clubs. An Ohio guest was also in attendance.

Covers were set for 119 people and all seats were taken.

The Belle Glade Club, which sponsored the organization of the South Bay Lions Club, was in charge of festivities, Lion Ed Lively presiding.

The program opened with one verse of America followed by the Pledge of Allegiance to the Flag. Curtis Glade pronounced the invocation.

Miss Alma Murphy, music instructor at the Belle Glade High School, presented four members of the Glee Club in a musical program. Miss Patsy Chamberlain accompanied the soloists on the piano. Fredrick Stevens sang a tenor solo, and Lloyd Kelly, zone chairman, sang a baritone solo.

Mr. and Mrs. J. E. Henderson, Jr. introduced the distinguished guests among whom were: Dr. Claude Hicks of Lake Worth, Int. Councilor who made the address of the evening on Lionism; Fred Owens, deputy district governor; Ross Witter, district governor; and presidents of all the Everglades Lions Clubs and their wives.

William Jeffries, mayor of South Bay, made the welcoming address. Deputy Governor

### The Belle Glade Herald

tion officer and presented the charter. R. S. Burr of Belle Glade presented the new club with the gong and gavel, a gift of the Belle Glade Lions.

T. E. Weathers, president of the South Bay Lions, acknowledged receipt of the charter and gift of gong and gavel.

Lion Emmett Roberts again called attention to the blood bank at the Clewiston Club on Tuesday, March 21, from 8:30 to 1 o'clock and urged all Lions to support the blood bank by becoming donors of a pint of blood at that time.

Officers installed were: President, Thomas E. Weathers; first vice-president, E. M. Cumpton; second vice-president, E. M. Willis; third vice-president, Charles Bilbo; Secretary-Treasurer, Carroll Warren; Lion tamer, Frank B. Willis; and tail twister, Clayton Waters.

Directors are: C. B. Higginbotham and I. Marvin Davis; for one year term, Melvin Herring and Floyd O. Wilder, for two year terms.

Other charter members are: Fred M. Cato, Charles E. Cuthfield, Eric Hartline, Sam E. Henderson, Alfred N. Lamoureux, W. M. Jeffries, H. O. Mitchell, John Mangs, Robert R. Readman, I. P. "Bob" Roberts, C. R. White and W. J. Wall.

The South Bay Lions met at the school cafeteria, at 8 o'clock in the school cafeteria. Various women's organizations took turns in preparing the supper.

### April 1 Deadline For Real Estate Taxes

Real estate owners in South Bay who have not paid their taxes for 1949 have until April 1 to pay these taxes without penalty. After April 1 the taxes become delinquent and according to town ordinance a penalty of 18 percent per annum will be levied for late payment.

Approximately \$25,000 in taxes are due for the year. The state and 77 percent of the personal property taxes have been paid to date.

### Third Circuit Refund Received By South Bay

The Town of South Bay has received the third circuit court order for the refund of taxes to the municipality. The check for the January collections amounted to \$774.31 which makes a total for the three months received to date of \$2014.72.

### Are being used by the Town Council for street improvement.

Two main residential streets in the town—Boke Ave. and Lake Ave.—and one main street in the Negro subdivision, Joe Lawler Ave., are being improved.

They have been surveyed and leveled and are to be graded, rolled, and receive a top coat of slag, and be sealed before the summer rains if present plans materialize. It is estimated that the project will be completed by July 1 and will be ample to pay for this work.

### Mother Of Mrs. Harry Smith Dies At Sebring

Mr. Harry Smith, South Bay, left Monday night for Sebring to attend funeral services for his wife's mother, Mrs. F. M. Dean, who passed away at the Memorial Hospital at Avon Park, Monday night. Mrs. Smith had been with her mother the past few days. Services were held in Sebring at 10:30 Wednesday morning.

### Spinal Has New Florida Rival

A new tropical leaf plant which compares with common spinach in minerals, vitamins, and flavor is being produced in Florida and may soon be on the market.

"Florida spinach," introduced by Dr. J. O. Ochs, professor of tropical botany at the University of Miami, is now being produced in the Belle Glade area for as little as \$25-40 per ton, according to a story by E. H. Borchardt, Belle Glade grower, in Florida Grower Magazine.

According to a group of Philadelphia food brokers, who tested the new leafy plant, it "comparatively with Norfolk variety spinach." The new plant does not contain axilic acid contained by ordinary spinach and authorities. Production of the Florida variety is estimated at about 100 tons.

The plant has not been introduced generally but a Belle Glade restaurant or two has been serving it regularly on its menu.

### When You Say "Fig." Say It Respectfully

The once lowly pig is getting a higher social rating, from scientists at least.

In cooperative studies, physicians are finding that the pig is a valuable source of information in the study of human diseases.

### finding that some swine ailments are remarkably similar to human diseases.

European research men recently discovered an apparent link between human polio and a strange virus disease in pigs. Prior to that, investigators focused attention on a similarity between influenza, swine and human beings.

A definite link has been established between the bone marrow of swine and undulant fever of people. It is estimated that 1 to 3 percent of all swine have this disease, and people catch it in the form of undulant fever, mainly by handling infected animals.

Newest studies tending to uncover the pig grew out of an atom bomb test at Bikini. Changes that took place in the bone marrow of a pig exposed to atomic radiation were found to be almost identical with changes occurring in human pernicious anemia patients. As a result, scientists suggested that pigs might be useful for experiments on this disease.

### Seek Means Of Stopping Measles-Like Cattle Ill

A cattle disease as baffling as human "polio" is bidding for attention of the nation's research veterinarians.

It is a measles-like disease, called anaplasmosis, that kills thousands of cattle every year. A method of vaccination has been developed for protecting young animals, but it makes them carriers of the infection.

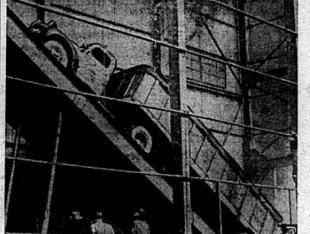

Dogs of different drugs also have been tested, in the hope of finding a cure for anaplasmosis. While some of these drugs help to save infected cattle, none will prevent recovery of animals from becoming carriers.

Livestock health authorities emphasize that carriers are the major problem in controlling the disease. The tiny blood parasite that causes anaplasmosis of the lungs in the body of the recovered animal may be spread to new victims by biting insects and careless use of surgical instruments.

Research projects now under way are designed to find drugs that will eliminate carrier infections. Veterinarians also are hoping that these studies will uncover new facts on the way anaplasmosis spreads, so that they can develop better means of protecting cattle against it.

Sundays: 10:00 a.m., 11:00 a.m., 7:00 p.m.

**THE UNPARDONABLE SIN**  
Scripture: St. Mark 3:28-30, "Verily, I say unto you, all sins shall be forgiven unto the sons of men, and blasphemies wherewithsoever they shall blaspheme."

"But he that shall blaspheme against the Holy Ghost hath never forgiveness, but is in danger of eternal damnation."

"Because they say he hath an unclean spirit."

I know there are various opinions concerning this sin, and of course the scriptures are of no private interpretation, but I believe the scripture speaks for itself.

Now let us notice just what Jesus is saying to the scribes and pharisees. He has been casting out devils in the name of his father who had sent him. While engaged in this good work and helping lost humanity, the ecclesiastical dignitaries of that day said, "This man is casting out devils by Beelzebub, the prince of the devils."

Jesus admonished them to this end, "You can blaspheme me, you can talk about my Father, But when you speak evil of the power wherewith I cast out demons you are in danger of eternal damnation."

Now, my friends, I think it would behoove us to confine our talk to what we know and understand, less we bring the displeasure of The Almighty God upon us.

These people were jealous of the power invested in Christ to do good. Being void of this power in themselves, they brought condemnations to their hearts, by trying to discredit the Authenticity of Jesus Christ. And in so doing were inviting the wrath of God on them.

Just before Christ left this world to go back to his Father, he told his disciples that they would do greater things than he had done. We have been privileged to see some of these things in this day. Yet as of old, there are still Scribes and Pharisees in this land today.

And I believe there are today a lot of people damning their souls with their own words of expression. Matthew 12:37 states, "By thy words thou shalt be justified, and by thy words thou shalt be condemned."

Just before Christ left this world to go back to his Father, he told his disciples that they would do greater things than he had done. We have been privileged to see some of these things in this day. Yet as of old, there are still Scribes and Pharisees in this land today.

And I believe there are today a lot of people damning their souls with their own words of expression. Matthew 12:37 states, "By thy words thou shalt be justified, and by thy words thou shalt be condemned."

Next Week's Sermonette Will Be Submitted By Elder W. C. Hatch, West Palm Beach, Pastor Of The Seventh Day Adventist Church, Belle Glade.

"I was glad when they said unto me, let us go into the house of the Lord."—Psalms 122-1.

Attend The Church Of Your Choice

### Univ. Of Florida Professor Deals With Calculus To Coconut Problems

Whether the problem is calculus or coconuts Dr. F. W. Kokomoor, head professor of freshman mathematics at the University of Florida, finds himself playing the part of a mathematician.

Letters come from retired business men who ask for an explanation on a new type of ruler, or new mathematics tables they have invented; phone calls come from high school teachers who are sure their bright pupils have "tricked an angle" or "squared a circle."

The professor's sleep has been interrupted at home to settle a midnight argument about a problem in a fraternity house, and sometimes he drops his text books long enough to appear on a witness stand in a case involving finance.

But Dr. Kokomoor and his fellow professors do not despair. They believe that the "consultation" part of the job is as important as the "teaching." This may mean helping students with their statistics, working a set of stiff calculations for business administration, or giving advice to someone on which retirement plan is the best, mathematically.

The case of the coconuts has reached the mathematician several times this year: Five men gathered a pile of coconuts. The first divided the pile in half, took half, with one left over. The second did the same. This happened with each, with one coconut left over each time. How many were in the original pile? "Answer Man" Kokomoor says the smallest number is over 2000.

The Florida mathematics department has about 2,000 students on its rolls, with 100 class sections meeting college requirements and giving background courses for such fields as physics and engineering. The staff has doubled in ten years, and the university will award its first Ph.D. degree in mathematics in June.

Parathion, described as one of the most effective treatments for scale insects and other varieties of insects, can be definitely dangerous to people if handled according to directions, the State Board of Health cautioned today.

The State Board of Health issued the warning after receiving reports of at least one death and several serious illnesses among workers which medical evidence indicated was due to careless use of parathion.

Dr. Wilson T. Sowder, State Health officer, said today that parathion is a potent and effective anti-scale and anti-insect spray and its use should be by all means be continued.

"But," he added, "directions for its use should always be observed and the necessary precautions taken to avoid toxic conditions which could lead to serious illness or death."

## NOW IT'S YOUR TURN TO BLOSSOM OUT

See in HENRY J. TAYLOR, ABC Network, every Monday evening.

You've seen it happen with the family down the street, the friends across town, the folks you went to school with.

They started out, as most folks do, with a car of modest size—and still more modest price.

Maybe they moved themselves up a bit, step by step, to the top-bracket models in that particular price range.

Then they discovered something: It doesn't cost much more—sometimes no more—to really blossom in a Buick.

It's not such a long stretch to take command of a great-hearted valve-in-head straight-eight—to move into the room and restfulness and

steady going of a Buick—to cloak yourself in styling that's today's height of highway fashions.

You can know the good, satisfying feel of a Buick wheel in your hand—you can have the gentleness of soft coil springs on all four wheels—you can revel in the handiness of cars that are big in room and big in repulse, yet traffic-sized and easy to park and put away.

Maybe—who knows till you inquire?—you can manage the magic silkiness of Dynaflow Drive\* in all its 1950 perfection—of a certainty you'll find the model that's twin to your heart's desire among the many choices Buick gives you for 1950.

So why not make this your year to blossom out in a Buick, as so many have before you? Why not

find out the dollars-and-cents story of Buick—it even includes some very happy figures on gas economy—from your own Buick dealer?

See him now, will you—and help yourself to some real fun this season!

**BUICK ALONE HAS Dynaflow AND WITH IT GOES:**

**HIGHER-COMPRESSION** Freebal valve-in-head power in three engines, five hp ratings. (New F-263 engine in Sport models) • **NEW-DESIGN STYLING**, with bumper-guard grilles, taper-through fenders, "double bubble" headlights • **WIDE-ANGLE VISION**, close-up road view both forward and back • **TRAFFIC-HANDY SIZE**, less overall length for easier parking and maneuvering • **EXTRA-WIDE SEATS** cradled between the coils • **SOFT BUICK RIDE**, from shock-coupling, safety-ride rims, low-pressure tires, ride-steadying torque-tube • **WIDE ARRAY OF MODELS** with body by Fisher.

YOU GET TO ENJOY VALUE

IT'S SPRING JUBILEE TIME WITH BUICK!

WHATEVER YOUR PRICE RANGE

### Pasture Season Brings Poison Plant Danger

At least three dozen kinds of plants are capable of poisoning farm animals, and authorities warn that livestock usually cannot distinguish safe plants from harmful ones. Arrow grass, cocklebur shoots, water hemlock, and locoweed are among the plants likely to cause illness and death. With the pasture season coming up, farmers are advised to suspect plant poisoning whenever an apparently healthy animal develops convulsions, breathes fast, and falls to the ground. At the first sign of trouble, the entire herd should be moved to another pasture or to a lot and a diagnosis obtained without delay.

You can help get out the vote this year. Don't be content to just cast your own ballot. Urge neighbors and friends to register and vote. Registration books close April 1.
